- 11 years State of Texas General Services Commission
- 18 years Round Rock ISD
- 2 years Leander ISD

Procurement Best Practices in Texas K12 Construction

Following the law is critical in the construction procurement process. If a school district doesn't follow the law, it may have to void the contract mid-construction. This session will dig into specific needs for the procurement process, plus it will discuss the importance of communication and collaboration between all stakeholders to ensure a complete and solid award.
