BEFORE USING 2024 TITLE IX FORMS

To implement our recommendations for handling complaints of student discrimination and harassment under the 2024 Title IX regulations *except* for adopting the definition of sex discrimination that includes “gender identity” and “sexual orientation,” you will first want your **board to adopt the suggested local policy**, which will replace your current FFH (LOCAL), and your **superintendent should adopt the suggested regulation**, which will replace your current FFH (REGULATION).

Once those two documents are adopted, you will refer to the document titled "Title IX Grievance Procedure Chart," for guidance on following the procedure outlined in the regulation and in using the forms contained in the 2024 Forms section of the library.
